# SAFETY DATA SHEET

#### CHEMSERVICE.

# 1. Identification

1. Identification		
Product identifier	Demeton-O-sulfone	
Other means of identification		
Item	MET-11580B	
CAS number	4891-54-7	
Synonyms		D, O,O-DIETHYL O-[2-(ETHYLSULFONYL)ETHYL] ESTER
Recommended use	For Laboratory Use Only	
Recommended restrictions	None known.	
Manufacturer/Importer/Supplier/	Distributor information	
Manufacturer		
Company name	Chem Service, Inc.	
Address	660 Tower Lane West Chester, PA 19380	
	United States	
Telephone	Toll Free	800-452-9994
	Direct	610-692-3026
Website	www.chemservice.com	
E-mail	info@chemservice.com	000 404 0000
Emergency phone number	Chemtrec US Chemtrec outside US	800-424-9300 +1 703-527-3887
2. Hazard(s) identification		
Physical hazards	Not classified.	
Health hazards	Acute toxicity, oral	Category 3
Environmental hazards	Not classified.	
OSHA defined hazards	Not classified.	
Label elements		
	and a start	
	Carelo I	
Signal word	Danger	
Hazard statement	Toxic if swallowed.	
Precautionary statement		
Prevention	Wash thoroughly after hand	lling. Do not eat, drink or smoke when using this product.
Response	If swallowed: Immediately c	all a poison center/doctor. Rinse mouth.
Storage	Store locked up.	
Disposal	Dispose of contents/contain	er in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.	
Supplemental information	mixture consists of compon consists of component(s) of	ts of component(s) of unknown acute dermal toxicity. 100% of the ent(s) of unknown acute inhalation toxicity. 100% of the mixture f unknown acute hazards to the aquatic environment. 100% of the ent(s) of unknown long-term hazards to the aquatic environment.

# 3. Composition/information on ingredients

#### Substances

Chemical name	Common name and synonyms	CAS number	%
Demeton-O-sulfone	PHOSPHOROTHIOIC ACID, O,O-DIETHYL O-[2-(ETHYLSULFONYL)ETHYL] ESTER	4891-54-7	100
4. First-aid measures			
Inhalation	Move to fresh air. Call a physician if symptoms	develop or persist.	
Skin contact	Wash off with soap and water. Get medical att		persists.
Eye contact	Rinse with water. Get medical attention if irrita	tion develops and persists.	
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting with advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.		
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary	irritation.	
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and trea under observation. Symptoms may be delayed		warm. Keep victim
General information	Ensure that medical personnel are aware of th protect themselves. Show this safety data she		e precautions to
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbo	on dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this	. ,	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.		
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.		
Fire fighting equipment/instructions	Move containers from fire area if you can do se	o without risk.	
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.		
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release meas	sures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep peo appropriate protective equipment and clothing authorities should be advised if significant spill see section 8 of the SDS.	during clean-up. Ensure adequ	uate ventilation. Local
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is possible. Absorb in vermiculite, dry sand or ea recovery, flush area with water.		
	Small Spills: Wipe up with absorbent material remove residual contamination.	(e.g. cloth, fleece). Clean surfa	ce thoroughly to
	Never return spills to original containers for re-	use. For waste disposal, see s	ection 13 of the SDS
Environmental precautions	Avoid discharge into drains, water courses or o	onto the ground.	
7. Handling and storage			
Precautions for safe handling	Do not taste or swallow. When using, do not e Wear appropriate personal protective equipme good industrial hygiene practices.		
Conditions for safe storage, including any incompatibilities	Store locked up. Store in original tightly closed (see Section 10 of the SDS). Refrigerator Store		compatible materials
8. Exposure controls/pers	onal protection		
Occupational exposure limits	This substance has no PEL, TLV, or other reco	ommended exposure limit.	
Biological limit values	No biological exposure limits noted for the ingr	·	

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures	, such as personal protective equipment
Eye/face protection	Face shield is recommended. Wear safety glasses with side shields (or goggles).
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear suitable protective clothing.
<b>Respiratory protection</b>	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Keep away from food and drink. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

# 9. Physical and chemical properties

-	
Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Light Yellow.
Odor	Not available.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	0.000006 kPa (77 °F (25 °C))
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Molecular formula	C8H19O5PS2
Molecular weight	290.34
Oxidizing properties	Not oxidizing.

# 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

#### 11. Toxicological information

#### Information on likely routes of exposure

Inhalation         No adverse effects due to inhaliation are expected.           Skin contact         No adverse effects due to skin contact are expected.           Eye contact         Direct contact with eyes may cause temporary irritation.           Ingestion         Toxic if swallowed.           Symptoms related to the physical, chemical and toxicological characteristics         Direct contact with eyes may cause temporary irritation.           Information on toxicological effecture toxicological characteristics         Toxic if swallowed.           Product         Species         Test Results           Conta toxicity         Toxic if swallowed.         Test Results           Demeton-O-sulfone (CAS 4891-54-7)         Oral         90 mg/kg           Skin corrosion/irritation         Prolonged skin contact may cause temporary irritation.         Sector symptoms related to the eyes may cause temporary irritation.           Skin sensitization         Not are sepiratory sensitization         Prolonged skin contact may cause temporary irritation.           Respiratory or skin sensitization         No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.           Germ call mutagenicity         No tal assifiable as to carcinogenicity to humans.           Not listed.         No tal assifiable as to carcinogenicity to humans. 	Ecotoxicity			
		No data available.		

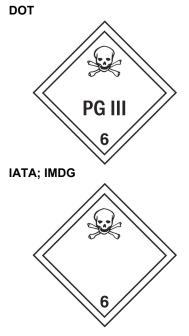

Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

# 13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
